

AirPro Green[®]

**NOTHING MORE
THAN PAPER
AND AIR**

THE BUBBLE MAILER WITHOUT PLASTIC FILM

AirPro Green is the environmentally friendly bubble mailer which does not require any bubble film to be protective. Paper bubbles do the job!

Embossed paper inside the bag forms a strong cushioning layer that protects pressure-sensitive contents from impact. Completely without plastic, this cushioned mailer scores with its environmental friendliness, strength, and lightness!

THE GREEN BUBBLE MAILER - MADE FROM PAPER AND AIR

AirPro Green stands for environmental friendliness, strength and lightness. Padded with embossed paper bubbles, this cushioned mailer is the green alternative to conventional bubble bags with bubble film.

AirPro Green is made from 100% FSC® certified recycled paper, utilizing the strength of embossed paper. In a complex process, the middle paper layer is provided with a stable bubble pattern. A total of 3 paper layers protects the shipping goods from external pressure.

The low weight and volume of the **AirPro Green** mailer also helps to send efficiently and economically. The recipient benefits from the simple disposal in the wastepaper collection. **AirPro Green** is fully recyclable.

This paper bubble mailer is ideal for senders who value protective and at the same time environmentally friendly shipping packaging!

PAPER BUBBLE MAILER

ITEM	FORMAT	SIZE (MM)	GSM	COLOUR	CLOSURE	PCS / BOX
