## RECYCLED AND RESISTANT!

Specially designed for your online business, **e-Double** is made from recycled paper to limit and remains fully recyclable. It produces no paper waste during the manufacturing process.

**e-Double** is also a surprising protection due to its unique design: two thin layers of paper glued with vegetable glue. **e-Double** is available in 6 formats: XS, S, M, L, XL and XXL.

These products are available from stock in our factories and can therefore be delivered quickly.

**e-Double** is customizable: have your logo or visual printed in our factories.

## SAFE AND WATER-RESISTANT

The unique design of the **e-Double** bag make it highly tear-resistant and protects contents during transport. And because deliveries are sometimes made in the rain, the vegetable glue used between the two layers of kraft paper also offers surprising water resistance.
